

SPECIALIST ANGLERS ALLIANCE

THE SAA ACTION LIST ON BEHALF OF SPECIALIST ANGLERS

- Representation of specialist anglers to the highest levels of government
- Campaign against illegal fish movements and introductions, including illegal imports
- Management of the re-introduction of otters and funding to protect "at risk" fisheries
- Input to the Moran Committee - Salmon and Freshwater Fisheries Review
- Monitoring proposed government legislation - direct and indirect effects on angling
- Active membership of Fisheries & Angling Conservation Trust - putting the specialist point of view
- Campaign against imposition of bait bans affecting predator anglers
- Liaison with the Environment Agency on a regular basis on a wide range of issues
- Representation of specialist anglers on Environment Agency committees
- Encouraging the Irish Government to take a realistic view of their spectacular pike stocks
- The new FACT Code of Conduct, prepared by the SAA and endorsed by the EA and numerous conservation organisations, important allies for the future of fishing
- Monitoring and campaigning against the anti-angling organisations
- Membership of the National Federation of Anglers, to get the specialist angler's voice heard there
- Input into the European Anglers Alliance - to head off interference from Brussels
- Monitoring and working towards a solution to the cormorant problem
